Subject: Sunray Carbon Black Plant NOx Study Notification

All, CCC is hereby providing notification that the NOx Study at the Sunray Carbon Black Plant, as required under the Consent Decree, had to be suspended on May 9, 2021 because Unit 3 had to be shut down due to oil supply and oil quality issues beyond our control. At this time we have completed approximately 80% of the study. We regret this delay and as soon as we are able to get the unit back online we will continue the study.

Please let me know if you have any questions.

Thanks,

Brad Stevener, P.E.
Sr. Manager EHS
